

# Alaska Public Broadcasting, Inc.

## Position Announcement

### Broadcast Engineer

Alaska Public Broadcasting, Inc. (APBI) seeks a Broadcast Engineer to join the staff of our statewide public media service bureau. The Broadcast Engineer will provide system support in all aspects of broadcast and new media engineering; including planning, installation, maintenance, repairs, FCC compliance and training.

For over 15 years the APBI engineering operation has provided onsite and remote broadcast and technical support to public broadcasting stations throughout Alaska. We seek a good natured, energetic person with great organizational and people skills, as well as significant experience in broadcast engineering. We seek someone who will enjoy working in a dynamic and innovative organization and bring strong verbal and written communication skills and a proven track record in project planning and implementation. We seek someone who enjoys working in the field with station personnel and community members.

APBI is a statewide organization providing a variety of support services to twenty-six public radio and four public television licensees in Alaska. Alaska is scenically beautiful with abundant outdoor recreation opportunities, features a wide range of climates, and is geographically and culturally diverse. The position will be based in Anchorage. To learn more about APBI visit our website at: [www.akpb.org](http://www.akpb.org).

**Deadline:** Open until filled, with an initial screening on June 20, 2017. Interested candidates are encouraged to apply as soon as possible.

**Salary:** DOE with a competitive benefit plan.

**To apply:** Please submit a letter of interest and your resume by e-mail to: [kim@akpb.org](mailto:kim@akpb.org).

Alaska Public Broadcasting, Inc. is an Equal Opportunity Employer.
